Welcome to ISPP

India stands at a moment of extraordinary possibility. The choices we make today—in governance, sustainability, and technology—will shape the kind of nation we become tomorrow.

At the Indian School of Public Policy, we believe public policy is where these choices converge, transforming bold ideas into actions that touch millions of lives. ISPP was founded with a singular vision: to nurture a new generation of changemakers equipped with intellectual rigor, interdisciplinary insight, and practical skills to shape India's future.

Our curriculum blends theory with real-world application, guided by faculty who are both scholars and practitioners. Here, students engage deeply with ideas, challenge assumptions, and collaborate across disciplines to solve pressing public problems.

Our community is vibrant, diverse, and united by a shared sense of purpose. Through policy labs, field immersions, and hands-on learning, ISPP scholars are empowered to lead with empathy, think systemically, and act decisively. They learn to navigate the intersections of Samaaj (civil society), Sarkaar (government), and Bazaar (markets), crafting solutions that are inclusive, impactful, and future-ready. Whether they choose to lead in government, drive innovation in social enterprises, or influence change through the private sector, our alumni carry forward a steadfast resolve to serve the greater good—through empathy, ethics, and action.

We invite you to explore ISPP—not just as an institution, but as a movement. Join us in reimagining governance, advancing equity, and building a more thoughtful, resilient society.

Learning by Doing: Real-World Impact Starts Here

Communication Lab

Writing & Communication Lab at ISPP provides apprentice-style training to hone writing, verbal, and non-verbal skills, enabling scholars to effectively engage policy stakeholders.

Policy Praxis Labs

Public policy governs our lives. The Policy Praxis Lab tackles its central challenge: how to design common solutions that serve diverse interests, using hands-on exercises and real world case studies.

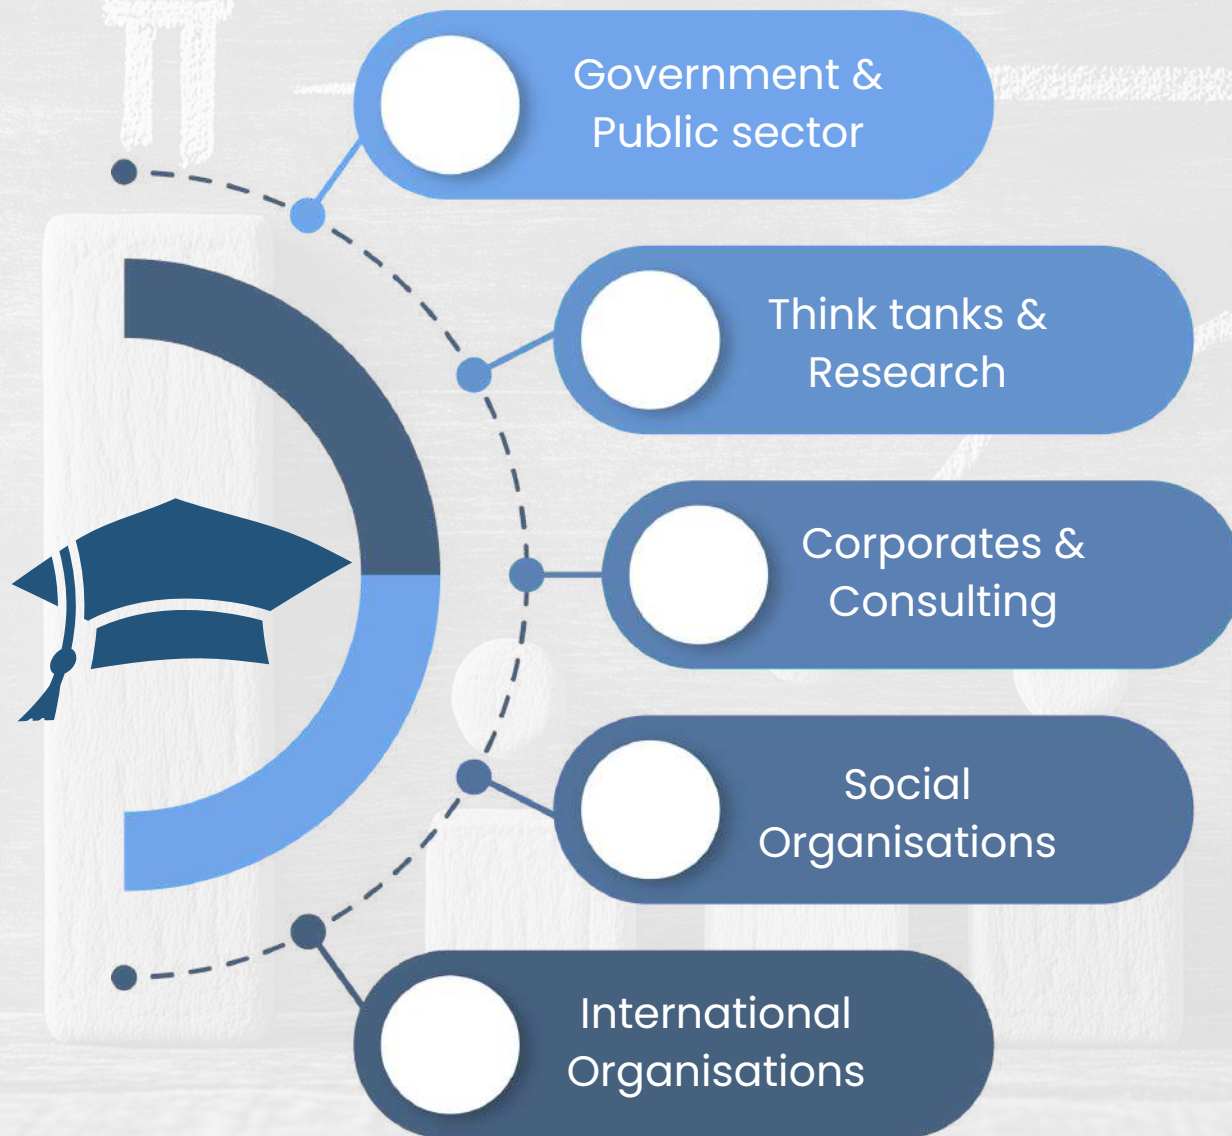

Antrang Leadership Lab

Where intimate conversations build powerful leaders. It fosters deep self-awareness and provides hands-on practice, equipping our scholars with the essential leadership skills.

Professional Development Lab

A lab that inculcates professional ethics and behaviour traits, the bedrock of success in their careers post ISPP, making our scholars day zero leaders.

From our Recruiters

"Our experience with ISPP has been extremely positive and fruitful. The career centre is very poised to coordinate our recruitment timelines with those of its fellows. Scholars from ISPP are very strong, they come with a deep body of knowledge and clarity of thought and action. Their performance as team members evidences ISPP's role in training these young professionals to take on public sector roles with critical thinking, a multi-faceted lens, and a focus on on-ground practicality. ISPP students have our continued support in their careers and I believe that ISPP is a great place for young professionals. My interactions with ISPP have been extremely professional, well-timed, and built on a desire to aid each other's organisational priorities."

The International Innovation Corps

"I see ISPP as a nursery for passionate and competent public policy professionals. It is therefore a very important institution with huge potential to positively impact the human development journey of India and Indians. We are delighted to have few ISPP scholars as fellow travellers in Janaagraha, and are deepening our collaboration with ISPP on the academic front too."

Life@ISPP

ISPP aims to cultivate a community of policy leaders with a multidisciplinary view of the world. ISPP is a vibrant and diverse community of scholars and public policy practitioners. The scholar senate, clubs, squads and the school's scholar-run online-journal is where our scholars learn a multitude of skills and lay the groundwork for lifelong learning and friendships.

Support at ISPP

In an effort to provide an optimal learning experience for all the scholars at ISPP, we have tied up with YourDost, an online counselling and emotional support platform designed to foster mental wellness. YourDost provides online, in-person counselling and mental wellbeing workshops for the entire community at ISPP. The in-person counselling has helped with issues of relationships; stress and fatigue; career; academics and self-improvement. Past group sessions have dealt with anxiety management, emotional wellness, managing placement stress during COVID-19, and coping with the challenges of online learning.

Hackathon

Through this initiative, we take the format of a hackathon and tweak it towards solving public policy problems. Policy organisations will present existing problem statements to the scholars, and the scholars will work towards drafting workable policy solutions within a specified time period.

Solving Policy Challenges
Through Innovation

Simulating Parliament,
Shaping Policy

Sansad

Sansad at ISPP is a two-day mock parliament event. Students from leading institutions convene to simulate the legislative process, debating and drafting policy proposals on pressing national issues, gaining hands-on experience in governance.

Guest Lectures

ISPP enriches its curriculum with an exclusive guest lecture series, bringing top policy leaders to campus. Scholars gain invaluable, first-hand insights from distinguished practitioners who have directly shaped public policy at the highest levels.
